Thern Launches New Silver Line of Products

New Stainless Steel Hand Winches Debut Thern's Silver Line

January 27, 2009, WINONA, MN. – Getting off to a quick start in 2009, Thern, Inc. is expanding their product catalog with the introduction of the new Thern Silver Line of products. The Thern Silver Line is launching with the new imported stainless steel TSSBW Series hand winch, formerly referred to as the Titan Series.

Available in three models offering lifting load capacities of 600, 900 and 1300 lbs, the new TSSBW Series hand winch is fabricated of 304 grade stainless steel and features solid steel machine cut gears, gear covers and automatic brakes. TSSBW Series hand winches are designed for light duty applications requiring corrosion resistance.

Designed for full integration with Thern's increasingly popular davit crane line, Thern's Silver Line of hand winches offer operators an economic option for lifting and pulling small to medium sized loads while ensuring product compatibility and increasing the range of crane package options available. Whether it's lifting dies, positioning conveyors or pulling material carts, TSSBW Series hand winches are up to the task.

TSSBW Series hand winches carry a 6 month warranty and are currently available for customer order.

Celebrating its 60th Anniversary in 2008, Thern, Inc. is a major designer and manufacturer of winches, cranes and hoists for virtually any industrial application. Founded in 1948, Thern is headquartered in Winona, MN and markets its products worldwide. Learn more about Thern products at www.thern.com or contact us via email at info@thern.com or call 1-800-843-7648.
